ELECTRICAL UNITS ON STAND CHECK LIST (to complete if applicable)

Does your equipment carry the necessary PAT certification?	
Will you ensure all stand access/exit points remain unobstructed in case of fire?	
Do you have adequate firefighting equipment available in prominent positions and easily available for use?	
Does your firefighting equipment have valid certification of testing?	
Have your staff been instructed on how to operate the fire-fighting equipment provided?	
Have you identified all ignition sources and ensured that they are kept away from all flammable materials?	

GAS EQUIPMENT ON STAND CHECK LIST (to complete if applicable)

Do you have an inspection / gas safety certificate for the appliances and pipework (copy to be available for inspection) and are all hose connections made with "crimped" fastenings?	
Are cylinders kept outside, secured in the upright position & out of the reach of the general public?	
Are appliances fixed securely on a firm non-combustible heat insulating base and surrounded by shields of similar material on three sides?	
Are the cylinders located away from entrances, emergency exits and circulation areas?	
Are the gas cylinders readily accessible to enable easy isolation in case of an emergency?	
Do you ensure that all gas supplies are isolated at the cylinder, as well as the appliance when the apparatus is not in use?	
Do you ensure that only those cylinders in use are kept at your unit/stall? Any spares should be kept to a minimum and in line with any specific conditions for the event	
Is a member of staff, appropriately trained staff in the safe use of LPG, present in the unit / stall at all times?	
Have your staff been made aware of what to do should an incident occur, how to raise the alarm, evacuate the unit, and the exit locations?	
Have you identified combustible materials that could promote fire spread beyond the point of ignition such as paper/cardboard, bottled L.P.G. cylinders etc. and reduced the risk of them being involved in an incident?	
Do you have adequate firefighting equipment? A minimum of 1 x 5KG dry powder fire extinguisher for every two cylinders. If deep fat frying is being carried out a fire blanket and a wet chemical fire extinguisher should be provided.
